

Maximizing Nutrient Intake for Improving Clinical Outcomes in Disease-Related Malnutrition

Prof Alessandro Laviano, MD, PhD

Head of Clinical Nutrition Unit of the Sapienza University Hospital Sant'Andrea, Rome, Italy.

WE SEE A **RISING COMPLEXITY** OF HOSPITALIZED PATIENTS

MALNUTRITION WORSENS PATIENT OUTCOMES
(YET WE DON'T ADDRESS THIS FACTOR ADEQUATELY)

REDUCED COMPLICATIONS

TAILORED NUTRITION

SHORTENED HOSPITAL STAYS

PATIENTS WILL DO BETTER WITH INDIVIDUALIZED INTERVENTIONS

ENSURING GOOD NUTRITION IS A COMMUNITY EFFORT & BENEFIT
